KADANS
SCIENCE PARTNER

“At the Park is a campus, a place where interaction stimulates innovation. Every building has their own function and programme and is connected and accessed through the park.

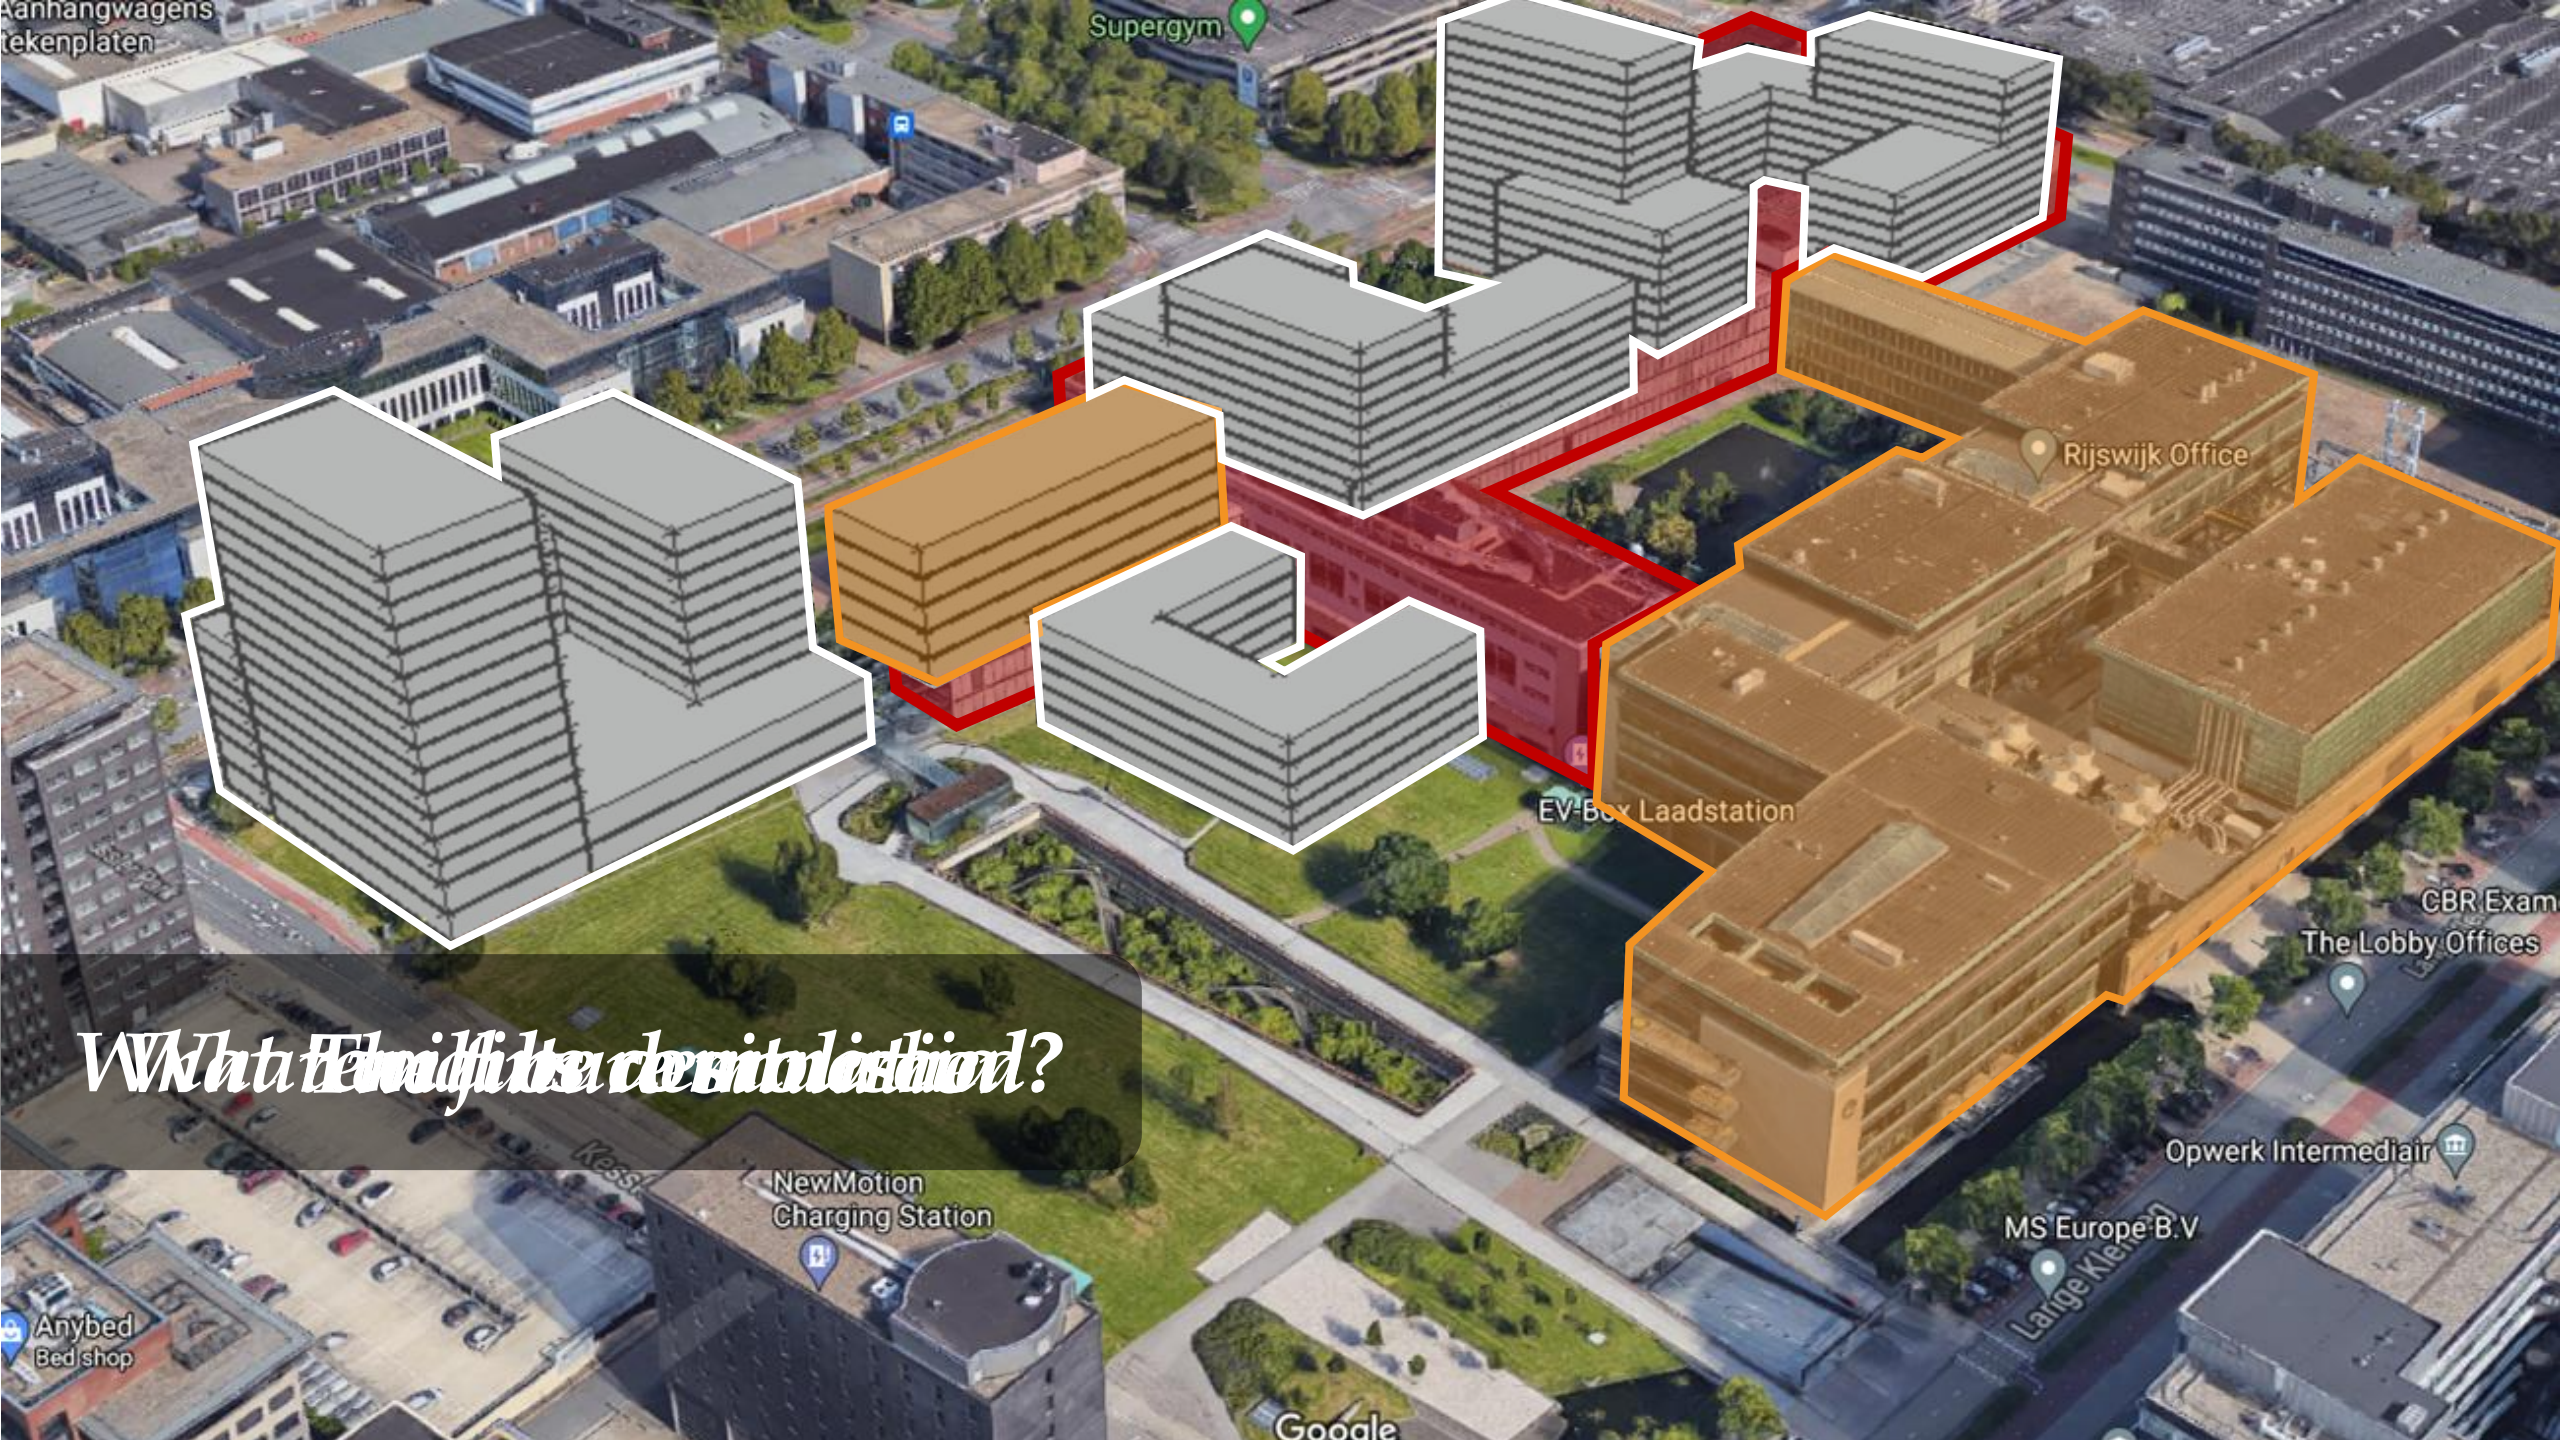

An aerial photograph of a university campus. The image shows a dense cluster of modern, multi-story buildings with grey and white facades. A prominent yellow outline highlights a central area that includes several interconnected buildings and a green courtyard. In the background, there are more campus buildings, a large green field, and a road with traffic. The overall scene is a mix of urban architecture and greenery.

*Campus At the Park, where
knowledge, implementation
and recreation come together*

A glimpse of the future!

A wide-angle, eye-level photograph of a modern, bright office workspace. The scene is filled with people working at desks and in a glass-walled area. The office has a clean, minimalist aesthetic with white walls, a light-colored floor, and a ceiling with recessed lighting. Large windows on the right side provide natural light and a view of greenery outside. In the foreground, two people are seated at a desk, working on computers. In the background, several other people are visible, some standing and talking, others sitting at desks. The overall atmosphere is professional and collaborative.

*Welcome to the
workspace!*

*An innovative campus in
a green oasis.*

We connect the green; the inner garden with the surrounding green zones. We bring back the human scale in the area and provide a natural heart.

*“Oasis is a big word
But that’s how it feels”*

**It's the new
place to B that
starts with an A.**

See you
At the Park.
